# Value DeltaXE

value

## 01

### Effortless Scheduling and Position Management

Simplify the process of sending schedules to Transmission System Operators (TSOs) and adjusting positions in real-time.

## 02

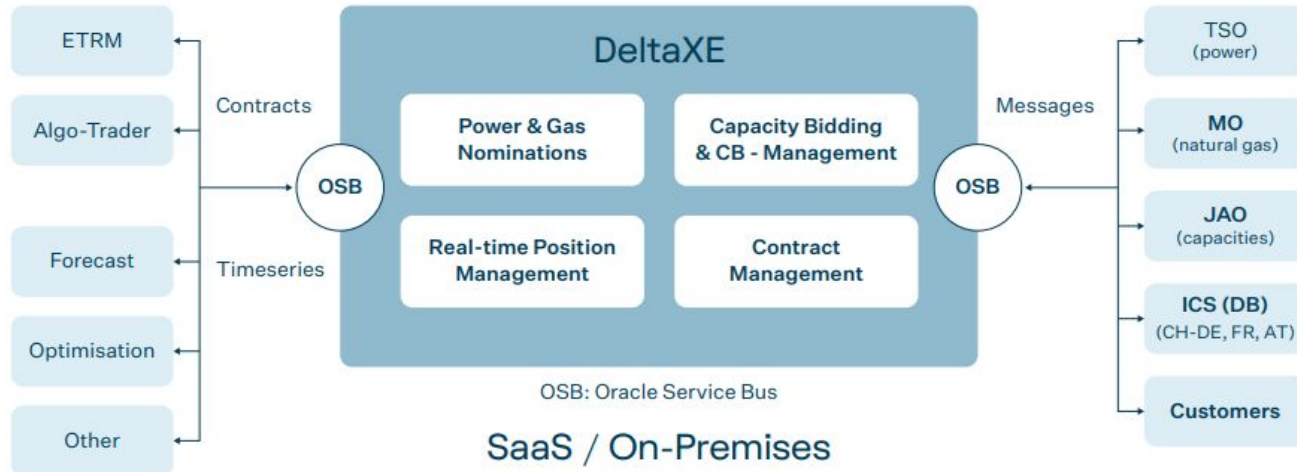

### Real-Time Position Insights

Gain a competitive edge with DeltaXE's real-time position overview. By consolidating trades from diverse markets, you're equipped with up-to-the-minute position data. This empowers you to make informed intraday decisions and optimise outcomes.

## 03

### Empowering Automation

By automating trade scheduling processes, it empowers your team to focus on strategic decisions. This automated approach enhances efficiency and minimises manual workload.
